EDUCATION

channabasaveshwara institute of technology

2018-2022

B.E in Electrical and Electronics Engineering

AWARDS & CERTIFICATIONS

- "The Best Innovative Student" award in CIT, tumakuru
- Won the first place in state level project exhibition for "New and improved processing technologies"
- Gold medal in 100mts running event and silver in 4X100mts running event

SKILLS

- Good knowledge in **JS**, **Node.js** and **Express.js**
- Good knowledge in writing **SQL** queries
- Good knowledge in **electrical circuit analysis**

PERSONAL SKILLS

- Ability to make sound decisions
- Good communication & organising skills
- Adaptability and problem solving
- Team player and leadership

PROFILE

A motivated and adaptable developing enthusiast, eager to contribute my knowledge and skills to a dynamic team. Possess a solid academic foundation in electrical and electronics along with a passion for full stack development. Strong communication and problem-solving abilities combined with a dedication to continuous learning. Seeking an opportunity to contribute positively and learn and grow in a collaborative and innovative environment.

INTERNSHIPS

INTERN

BESCOM

2021

- Studied the electrical distribution system and their working
- Testing and repairing of transformers and other equipments
- Study of electrical circuit analysis

PROJECTS

- Two wheel electric vehicle using regenerative braking, self charging and solar charging.
- The project made use of the RBS system to convert the energy lost while braking into efficient energy for battery, the self charging using the dynamo to charge the battery and solar panels for charge the battery in sufficient amount of time.

HOBBIES

- Athletics
- Football
- Watching anime
- Trekking
- Study of old texts and research
